**Proposals**

1. The *de minimis* margin referred to in Article 5.8 should be increased from 2 per cent to 5 per cent, expressed as a percentage of the export price.
2. Paragraph 4.2 of Article 2 should be clarified in the sense that the application of the rule establishing the comparison between the weighted averages of the normal value and the export price involves obtaining those averages on the basis of the same time-period.

Proposal No. 3 of document WT/GC/W/315 is withdrawn.
