

**Alan Beebe (毕艾伦)**

Managing Director,  
China Greentech Initiative

Alan is a Managing Director with the China Greentech Initiative (CGTI), the leading commercial platform to uncover, promote and accelerate greentech opportunities in China. CGTI clients include major foreign and Chinese corporations, private equity and venture capital organizations, governments and non-government organizations (NGOs). Alan is responsible for all research and delivery programs of CGTI across six major greentech sectors: cleaner conventional energy, renewable energy, electric power infrastructure, cleaner transportation, clean water and green building. In collaboration with CGTI clients, he leads CGTI strategic research across a wide spectrum of topics related to growth markets, technology innovation, green financing and greentech regulations in China.

Prior to joining CGTI, Alan held Executive positions with IBM China (Beijing) and global management consulting firms AT Kearney and PRTM. Alan has lived and worked in Greater China and other Asian countries for nearly 20 years. He is fluent in Mandarin Chinese.

Alan has over 15 years of management consulting and industry experience in the US, Europe and Asia advising senior executives on the development and execution of their business and technology strategies. He has served clients such as China Telecom, Huadian Power, Huawei Technologies, Pacific Gas & Electric and major global private equity firms.

He holds a Master's degree from Yale University in International Relations and a Bachelor's degree in Business Administration and Computer Science from the University of Nebraska-Lincoln in the United States. He is a Board of Advisor of the Yale Club of Beijing and in that capacity promotes academic and cultural exchange programs between the United States and China. Alan is a US citizen and married with two children.
